SupraBiology: Supercomputing for Systems Biology and Systems Medicine MCISB, MIB, University of Manchester, June 16-17, 2014

	ane 2014 (MIB lecture Hall)
	Hans V. Westerhoff: Workshop logistics
09h10-09h50	
	the TianHe Supercomputer
09h50-10h30	Hans V. Westerhoff (Manchester): What computing is needed for systems
	biology and systems medicine
10h30-11h00	Coffee break
11h00-11h55	Long Liu (Changsha): Current biological studies in NUDT
11h55-12h35	Pedro Mendes (Manchester): Simulating systems Biology
12h35	Lunch
13h35-14h15	Andrew Narracott (Sheffield): HPC for the Virtual Physiological Human
14h15-14h55	Janette Jones (Port Sunlight, Unilever): Computing for industry
14h55-15h30	Tea break
15h30-16h10	Amin Rostami (Manchester) & Steve Marciniak (Simcyp Ltd):
	Simulation of Population of Individuals in PBPK and PKPD:
	The added value of grid computing compatibility
16h10-16h50	Andrzej Kierzek (Surrey): QSSPN: Hybrid simulation of qualitative, kinetic and
	flux balance models
16h50-17h30	Discussion: possible joint projects
18h00-20h00	Conference dinner
Tuesday 17 J	une 2014 (MIB Lecture Hall)
Tuesday 17 J	une 2014 (MIB Lecture Hall) Douglas B. Kell (Manchester): The cellular uptake of pharmaceutical drugs: a
Tuesday 17 J 09h00-09h45	une 2014 (MIB Lecture Hall) Douglas B. Kell (Manchester): The cellular uptake of pharmaceutical drugs: a problem not of biophysics but of systems biology
Tuesday 17 J	une 2014 (MIB Lecture Hall) Douglas B. Kell (Manchester): The cellular uptake of pharmaceutical drugs: a problem not of biophysics but of systems biology Gerold Baier (UCL): Web-based Training In Systems Biology – a China-UK
Tuesday 17 Jo 09h00-09h45 09h45-10h25	une 2014 (MIB Lecture Hall) Douglas B. Kell (Manchester): The cellular uptake of pharmaceutical drugs: a problem not of biophysics but of systems biology Gerold Baier (UCL): Web-based Training In Systems Biology – a China-UK initiative
Tuesday 17 Jo 09h00-09h45 09h45-10h25 10h25-10h50	une 2014 (MIB Lecture Hall) Douglas B. Kell (Manchester): The cellular uptake of pharmaceutical drugs: a problem not of biophysics but of systems biology Gerold Baier (UCL): Web-based Training In Systems Biology – a China-UK initiative Coffee break
Tuesday 17 Jo 09h00-09h45 09h45-10h25 10h25-10h50 10h50-11h30	une 2014 (MIB Lecture Hall) Douglas B. Kell (Manchester): The cellular uptake of pharmaceutical drugs: a problem not of biophysics but of systems biology Gerold Baier (UCL): Web-based Training In Systems Biology – a China-UK initiative Coffee break Peter Coveney (UCL): Multiscale modelling from molecules to physiology
Tuesday 17 Jo 09h00-09h45 09h45-10h25 10h25-10h50	une 2014 (MIB Lecture Hall) Douglas B. Kell (Manchester): The cellular uptake of pharmaceutical drugs: a problem not of biophysics but of systems biology Gerold Baier (UCL): Web-based Training In Systems Biology – a China-UK initiative Coffee break Peter Coveney (UCL): Multiscale modelling from molecules to physiology Guan Nai-Yang (Changsha): Non-negative matrix factorization and its
Tuesday 17 Jo 09h00-09h45 09h45-10h25 10h25-10h50 10h50-11h30 11h30-12h10	une 2014 (MIB Lecture Hall) Douglas B. Organisers:

Samrina Rehman, Ettore Murabito, Malkhey Verma, Chengkun Wu. Jacky L. Snoep, Shao-Liang Peng, Hans V. Westerhoff

Location: MIB, University of Manchester

Organized by the Manchester Centre for Integrative Systems Biology Supported by the Biotechnology and Biological Sciences Research Council (BBSRC)
